Experience

Frontend Engineer, HealthTap (July 2016 - present)

- Implement beautiful UI components for the HealthTap site, with an emphasis on responsiveness and modularity.
- Lead the web team's globalization efforts, refactoring our UI modules to robustly handle international languages, dates, currencies, time formats, etc.
- Quickly troubleshoot and resolve hundreds of frontend bugs.

UI/UX Designer, MyGreenCar Project- Berkeley Lab (October 2015 - June 2016)

- Designed and developed MyGreenCar's web-based user experience.
- Created mobile designs for the project's Android and iOS apps.
- Created consistent design guidelines and branding, and oversaw implementation across all MyGreenCar platforms.
- Developed D3 data visualizations to provide feedback to users about their driving habits.

UI/UX Designer, Twindom (June 2015 - August 2015)

- Designed fresh, consistent look-and-feel for Twindom site across multiple platforms (WordPress, Magento).
- Improved website flow to aid customer understanding of Twindom's services and products.
- Implemented mobile-friendly webpage layouts.
- Led backend and frontend development of the Twindom Twinviewer iOS app.
